22. Public works (70 items)
-----------------------------

Goals related to procured goods other than those already specified.

( i )

When procuring items other than specified items, we will endeavor to select items that have the least impact on the environment (items that consume less power, items that use more recycled materials, etc.).

( ii )

We will encourage businesses that deliver goods, services, contractors for public works, etc. to promote purchases in accordance with this procurement policy.

( iii )

We will repair the equipment as much as possible and strive for long-term use.
